An average of 12,000 veterans file changes of address each month with the Los Angeles Veterans Administration regional office, according to L. C. Chapman, manager.

This number will reach at least 25,000 per month if all veterans move from place to place in the same ratio as those with names in VA files.

Many hundreds more who move to new locations fail to notify the VA office of their change of address.

Question: I am in an on-the-job training program learning to be a mechanical draftsman. I want to take some courses at night school which will help me in my work.

Answer: That can be done providing the Veterans Administration determines you are capable of carrying on both your job training and night school satisfactorily at the same time.

Question: Are disabled veterans in training under Public Law 16 subject to the ceiling for on-the-job training established by a recent law?

Answer: No. The new law applies only to veterans training under the G.I. Bill, Public Law 348. It does NOT apply to disabled veterans taking Rehabilitation training under Public Law 16.

THINK IT OVER

By Oden & Humphrey! IS HAPPINESS FOR SALE?

We make the sorrow or happiness that has fallen to our lot.

Happiness is not for sale nor can it be bartered. It cannot be realized through cowardice; man can no more avoid his moral and personal obligations, and be happy, than he can live without air.

When we are lovers of truth, when by act and deed we give others that which we seek, when we are just according to the laws of man and God, and when we face each issue or circumstance as only brave men should, happiness comes to us like waves come to the chasm.

When you ask us to list your property, you ask us to assume a responsibility. This we accept. We abide by the terms you stipulate and close the sale to your and your buyer's satisfaction.

When we are your agent, you have our fealty. Classifications 36, 57 & 84 See Our Classified Ads Under
